

TAILORED FIT

CUSTOMAXX
Cut to Fit Rubber Parts

Product Feature:

Having been in the business since 1949, Oriental Rubber Industries has always made an effort to continuously improve the product offerings to suit the customer's needs. The Oriental product range which includes mono-ply to multi-ply synthetic fabric reinforced conveyor belts, plain as well as profiled rubber laggings, metal linings and other wear protection products; can now be cut for custom shapes. Our advanced fabrication facility along with our technical expertise gives us an opportunity to supply cut parts with close tolerances. Thus giving a tailored fit for all your requirement.

We offer a truly customized, economical and minimal wastage solution to suit all your requirements of the custom cut rubber parts.

Benefits of CUSTOMAXX Solutions:

- Complete turnkey solution - manufacturing as well as cutting of the rubber part
- Material maintains its structural integrity and no secondary finishing is required. No distortion due to heat.
- CNC controlled die-less cutting for any shape
- Ultra High precision with tight tolerances
- No upfront tooling costs. Minimum labour required.
- Quick, multiple and easily replaceable cutting heads and cutting speeds.
- Clean process eliminating the use of natural resources like water or sand to aid cutting.

Product Applications:

- Cut to size small scale model replicating the original heavy rubber sheets and conveyor belts
- Optimal sized samples to showcase at expos and exhibitions
- Dust curtains which are cut to shape and custom-fitted onto the machines
- Skirt rubbers with a wide range of widths
- Multiple types of sealing rubber
- Rubber linings for chutes, truck walls, hoppers etc

ACCURATE PROFILE CUTTING

Common Cutting Shapes

Machine Parameters	
Working Area	1600mm x 2500mm
Transitional Speed	800-1200 mm/s
Cutting Speed	200-800 mm/s
Cutting Thickness	< 50mm
Safety Device	Infrared Sensors
Repeat Accuracy	<0.1mm
Precision	+/- 0.01mm

LCD TOUCH INPUT

HIGH PRECISION CUTTING HEAD

LARGE CUTTING AREA
